

ORAL SOLID DOSING TECHNOLOGY (OSD)

30TH MARCH 2023

Marchesini Group and FPS are glad to co-host the International OSD Workshop. The event will focus on the HPAPI production, with particular attention to the products' final formulation and packaging, according to the highest standards of the pharmaceutical industry.

The guests are invited to the Great Tasting Experience of Emilia-Romagna's culinary tradition products, taking place the day before the Workshop and the visit of the technologies on show.

TOPICS

- OSD High Containment Technology
- Latest technologies for the packaging of solid products that use containment systems
- Main blister and counting solutions for the packaging of pharmaceutical solids
